- > Do you plan to attend a four-year college after high school? Yes No
- > If you answered "Yes" to the above question, would you be the first person in your immediate family to attend a four-year college? ____ Yes ____ No

PARENT PERMISSION

This is to certify that my child/student has my permission to participate in an approved career and technical education program under the authority of the Lehigh Career & Technical Institute. I agree to provide lab clothing and supplies as required and understand that such items are the personal property of the student, who must be responsible for their safe-keeping. Career & technical education programs may involve operation of power machinery, electrical components, and program specific tools. Safe use of all tools and power equipment and electrical components is taught to the students. Reasonable precautions are taken to avoid accidents or injuries to the student or others within the instructional area. I understand that there are risks involved in providing career and technical education. I have had the opportunity to review the Essential Skills Alignment Charts for the programs my child/student selected on the application.
